PRAJWAL SURENDRA GOHAD

OBJECTIVE

I create digital experiences where user needs meet business goals seamlessly. As a UI/UX Architect, I design end-to-end journeys, actionable interfaces, and scalable solutions while ensuring designs are development-ready. With a background in product ownership, content strategy, and computer science, I help businesses transform complex requirements into intuitive, high-impact web applications. I am also skilled in client interaction, collaborating closely with stakeholders to understand their vision, provide strategic guidance, and deliver solutions that exceed expectations.

WORK EXPERIENCE

Ux/UI Designer

Uelement | Pune | 2025 - Working

- Led end-to-end UX/UI design for Uelement's core product, owning the full design lifecycle from research and wireframing to high-fidelity UI and developer handoff.
- Acted as Product Owner for one key project, defining product vision, user flows, feature scope, and priorities.
- Served as the primary point of contact (SPOC) with the client, gathering requirements, presenting designs, incorporating feedback, and ensuring alignment between client expectations and product delivery.
- Collaborated closely with developers and internal stakeholders to ensure smooth execution under startup timelines.
- Created website content and UX copy aligned with product messaging and user intent.
- Generated AI-based images and videos to enhance website visuals, storytelling, and overall brand presence.

Ux/UI Designer (Intern)

The Data Tech Labs | Pune | 2024 - 2025

- Designed user-centric web and dashboard interfaces based on business and user requirements.
- Created wireframes, user flows, and high-fidelity UI designs using Figma.
- Worked closely with developers to ensure accurate design implementation and smooth handoff.
- Improved usability and visual consistency across products by following UX best practices.
